Q10 - Do you have any suggestions for the next edition of the IEUSS Guide to SUNYMEU that might help students prepare for SUNYMEU?

Do you have any suggestions for the next edition of the IEUSS Guide to SUNY...

No.

Given the guide's length, it may be useful to create a separate document (or add it as an addendum to the guide) that gives an abbreviated summary of how SUNYMEU works.

Possibly a section on rules of procedure for the simulation

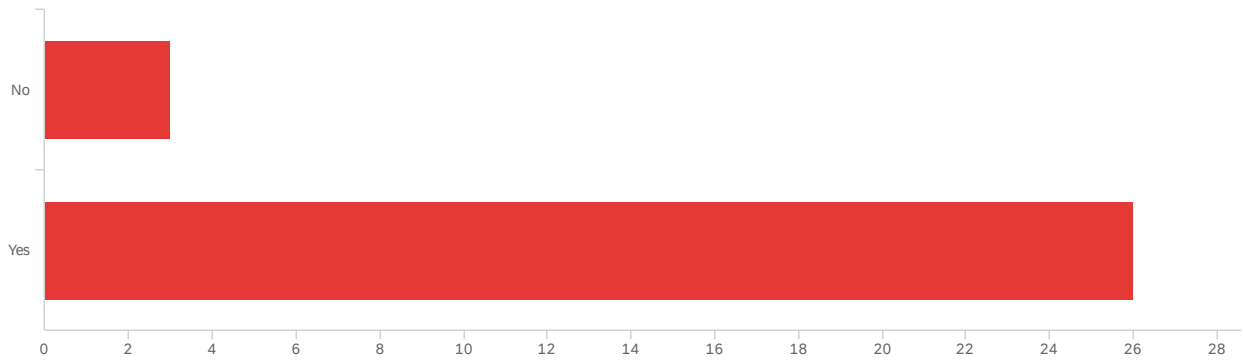

Less content, more straight to the point

Consider having a brief summary of the main points and a cheat sheet on how the phrases one might say during the meeting such as point of order

More concise--it's quite overwhelming, especially for new students

Q31 - What did you like most about SUNYMEU?

What did you like most about SUNYMEU?

The different people that gathered in a room, the passion, the kindness that everyone showed to everyone.

I liked seeing how seriously student participants took the simulation. People were well prepared, so there was a lot of great discussion.

I enjoyed meeting people from across the United States and from abroad (especially international students from EU member states).

Loved Tirzah and Derek! So kind and helpful! Loved getting to learn more about the EU through direct experience as well! It was definitely so beneficial and amazing to meet students from other schools and more so to watch all of us come together to form effective solutions all from different backgrounds and perspectives in one shared experience. Overall, SUNYMEU presented such an interesting opportunity; I'm so grateful for having the change to attend this year, and look forward to doing so next year!

Networking and interacting with students from other areas, midtown location

The networking opportunities

The lively debate and excellent delegates

the negotiating, debates, playing a role

I have never participated in a simulation like SUNYMEU before. While similar to Model UN, the context of the conversation is different. Most of the students who participated needed to learn and research their country in order to participate effectively.

The collaboration aspect.

The organizers, Tirzah and Derek were very accommodating. The venue was excellent and the schedule was well organized.

Q32 - What did you like least about SUNYMEU?

What did you like least about SUNYMEU?

The food was horrendous but breakfast was okay.

Nothing.

Nothing! I think this year's conference was enjoyable and well-organized.

While the vegan sandwiches could have improved, the overall experience was truly wonderful. Our group did commute for each day, though doing so was a learning experience as well.

Travel expenses were a bit steep but unavoidable

Nothing

I didn't win best head of government

some participators ignoring me

Some students were not as invested as others. There was definite pretenders and contenders, and some students were hesitant to speak, while others were not willing to cooperate on the issue. That's not something you can really avoid, but still a criticism

N/A

I wish there was a planned social event.

Food

The summaries at the end of the day, where certain congregations (students) asked intentionally goofy questions.

Lack of anything outside of the simulation to encourage meeting others

Is there anything else you would like to share with us?

Thank you.

I enjoyed participating in this year's conference, and I look forward to attending SUNYMEU 2024 in Buffalo next year!

Thank you for such a wonderful chance and event! :)

Change the voting system and stop favoring the presidency delegates over the rest of us.

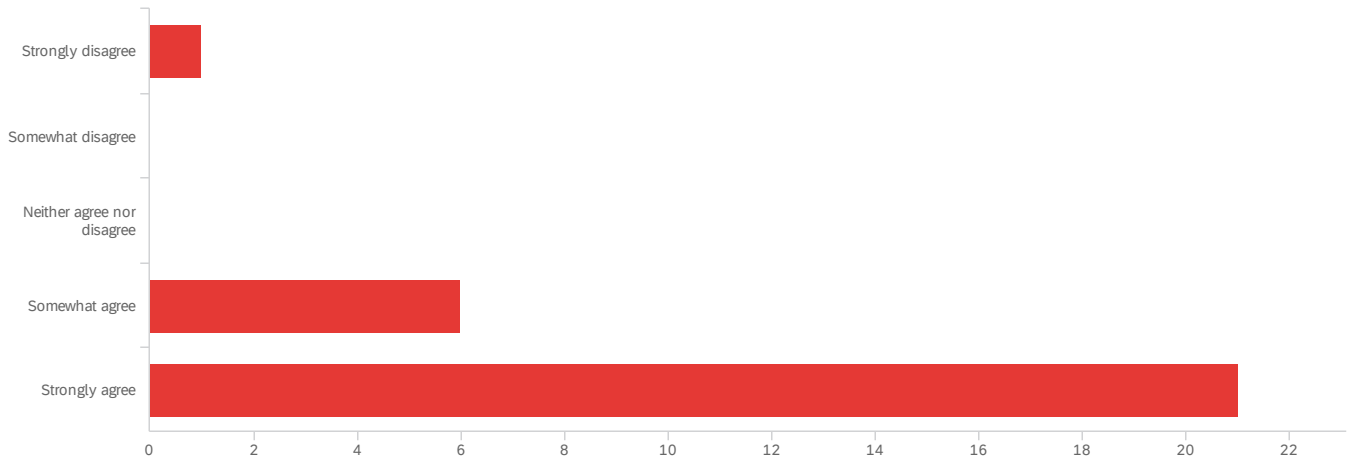

Not really. I had a great experience at SUNYMEU. I have never participated in a simulation like this, and I learned lots of valuable things. I am someone who is very involved in student governance, as I am the president of my community college student government, and involved in statewide student government like SUNYSA. Even so, i learned a great deal about Roberts rules, conflict resolution, teamwork, etc.. I just want to thank you for such a great opportunity, and I hope that my next college participates. (UB most likely)

Great Work.
